

Child center guide in brief

Dalton Child Center

We are a Dalton child center and work based on the 5 core values. These are described in our Dalton workbook. They are listed here again:

Self-reliance

The children can plan themselves when to do which task. The teacher guides them in this.

Cooperation

While working together, the children learn with and from each other. They learn that everyone is different.

Freedom and responsibility

By letting children determine their own workplace and the order of their tasks, they develop an active learning attitude.

Effectiveness

We work on goals so that the learning time we have at school is used well. We work with daily tasks and weekly tasks. The weekly task is tailored as best as possible to the educational needs of each child.

Reflection

Children learn to reflect on the things they have done in order to learn from them for the next activity.

LeerRiiken

Within our child center we work with various LeerRijken. These LeerRijken are divided as follows.

LeerRijk 1 consists of Korein's baby group and toddler group

LeerRijk 2 consists of grades 1, 2 and 3

LeerRijk 3 consists of grades 4 and 5

LeerRijk 4 consists of grades 6, 7 and 8

School hours

At Talentrijk we use the following school times:

- Monday, Tuesday and Thursday from 8:30 am to 3:00 pm
- Wednesday and Friday from 8:30 am to 12:30 pm

The children have lunch at school on Monday, Tuesday and Thursday. They bring bread and drinks from home. We have a fruit break every day of the week where children eat their own fruit.

We encourage a healthy lifestyle and healthy diet. We hope you can take this into account when filling the lunch boxes.

Together with our partner Korein, we offer BSO (After-school Care) from 7:00 am to 6:30 pm. If you would like to make use of this, please contact Nicol v.d. Sommen, Korein's manager; n.vankessel@korein.nl

Kwieb

All communication from Talentrijk takes place via Kwieb. You can also report your child(ren) sick via Kwieb. It is therefore important that you register for Kwieb.

If you need help with this, you can always contact your son/daughter's group teacher.

We also ask you to answer any privacy questions that may still be open in your Kwieb environment per child.

Rots and Water

Rots and Water is a social competence training with a very physical approach. Rots and Water lessons are characterized by a lot of activity. We play games, do exercises, feel and experience, with short moments of conversation in between. Rots and Water lessons are taught in all grades.

Thematical letter

We work around the same themes in all groups. The children in the toddler group and after-school care also work with the same theme. At the start of a theme, you will receive a theme letter from us containing more information about the opening/closing, activities we carry out during this theme, fun things to do at home, an explanation of the theme of Rots and Water and any parent assistance.

Gymnastics

Toddlers & Grade 1-2:

At the start of the school year, the intention is that every child has sneakers labeled with their name at Talentrijk. Preferably sneakers that the children can put on and take off themselves (with Velcro or elastic straps). The sneakers remain at school.

Grades 3 to 8:

Groups 3 to 8 do gym twice a week.

On the days that they have PE, we expect the children to bring sportswear and sports shoes. During gymnastics, students must remove jewelry and/or glasses due to safety.

Birthday

If it is your son/daughter's birthday, he/she can of course treat the children of their class. That's why we have filled candy jars at Talentrijk. This way we ensure that it is a fun party for everyone. On his/her birthday, the birthday boy or girl can choose sweets that are distributed in the main group. We naturally also take allergies/dietary requirements into account.

You have just read the most important information about our child center. If you want to know more, you can read the child center guide. This can be found on our website. Take a look at https://kc-talentrijk.nl/
